## TABLETOP FEATURES

**Quality means advantage.** The difference in quality begins with the material. Topalit table tops are made of a highly condensed core material. The form-pressed construction offers the highest stability while automatically making it moisture resistant!

2 year warranty for all Topalit table tops.

Weather resistant, making our table tops ideal for outdoor usage.

Heat resistant up to 180°C and tough against temperature fluctuations.

Unbreakable and impact resistant, capable of standing up to the roughest of treatments.

Scratch resistant due to the extraordinary robust surface.

Due to the surface and edge coatings being made in one casting, without joints and fused with the core, extremities merely bounce off.

Easy-Care, Simple to clean, and even more important, hygienic.

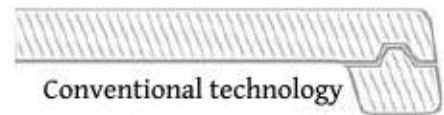

Even cigarette glow leave our table tops cold.

UV-Resistant.

The Topalit technology is formed out of one piece without any glued joints therefore avoiding any potential weak spots.

Conventional technology

Topalit technology

Do not stack

Keep the dark colored products away from direct sunlight.

Do not use corrosive materials.

The colors shown in this catalog may vary slightly from the product color. Upon request we can gladly supply you with original samples. Please feel free to contact us for special colors and decors. In areas with direct sunlight we do not recommend dark colors.
